About NavData

- Plan maintenance effectively to avoid unexpected downtime
- Detailed data to optimize your operations
- Track locomotive locations in real time and analyze ride history

Complete oversight of your vehicles and keep your vehicles under control 24/7

[illegible]

The screenshot shows the 'Tripbook' interface for a journey to San Francisco. It includes a sidebar with navigation options like 'Map', 'Journey vehicles', and 'Tripbook'. The main content area displays a table of journey segments with details such as vehicle ID, journey start/end times, stop names, and arrival/departure times.

Vehicle	Journey start	Journey to	Start of journey	End of journey	Message	Average speed (km/h)	Max speed (km/h)
15047 301 302.4	21:15 19.442	21:16 19.29	Lagares Lagares - Novo Rio de Janeiro	San Francisco San Francisco - Novo Rio de Janeiro	200	8	120
15047 301 302.2	21:15 19.33	21:16 19.29	San Francisco San Francisco - Novo Rio de Janeiro	Ingles Ingles - Ingles again	201	11	100
15047 301 302.4	21:15 19.33	21:16 19.29	Ingles Ingles - Ingles again	Ingles Ingles - Ingles again	604	2	100
15047 301 302.3	21:15 19.49	21:16 22.12	Alto da Serra Alto da Serra - Ingles	Ingles Ingles - Ingles again	201	9	110

At the bottom, it shows '0:24 total 340' and a zoom control with a slider set to 100%.
