

Efficient preparation for driving

Prepare drivers
cost-efficiently

Trains new
drivers efficiently

Enhances rail
traffic safety

Reduces driver's
stress

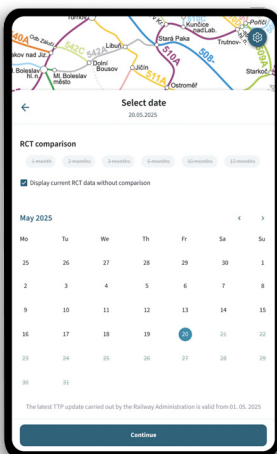

About NavSim

- NavSim significantly contributes to safer railway operations and helps reduce drivers' stress
- NavSim serves new train drivers, but also helps experienced drivers navigate changes in guidelines on routes they haven't driven for a while
- The NavSim driving simulator is an extension of „navigation for drivers“

Railway simulator helps both beginners and experienced train drivers

Simulation guidelines selection

Quick route setup
